Object

The National Plant, Flower and Fruit Guild was organized in 1893, and has now over three hundred Branches. The main office is at 70 Fifth Avenue, New York City.

The object of the National Plant, Flower and Fruit Guild is to distribute flowers and plants, fresh and preserved fruits and vegetables, among the poor in settlement districts, hospitals and other charitable institutions.

To place window-boxes and establish gardens in poor districts, and to do all that is possible to cultivate a love for nature.

To aid those who live in the country to share their abundance with the dwellers in the city.

This we are able to do through the generosity and courtesy of the Express Companies, who carry for us without charge all packages marked with the Guild label.

Our Needs

Patrons, who pay annually $5.00 or more.
Associates, who pay annually at least $1.00.
Donors, who pay any sum at any time.
Any seedlings or plants you can spare us.

Will you not become a Collector or establish a Country Branch this spring?

When dividing the perennials in your garden, or transplanting your seedlings, will you not send your surplus to us for our back-yard gardens or for our Plant Markets?

Will you not send us the flowers from your greenhouse or the fruit and vegetables from your garden while you are away?

A post-card request sent to this office will bring you free transportation labels for this purpose.

Please make checks payable to
MR. OTTO T. MALLERY
Treasurer
36 South Eighteenth Street

Patron's fee, $5.00 annually
Associate membership, $1.00 annually
Contributors may pay any sum at any time

Report of the President

The past year has been an eventful one for our Branch of the Flower Guild. Obliged to leave our old office for one with lower rent, we were most fortunate in being able to find a room near at hand, which was secured for us by the kindness of one of our Committee, and through the courtesy of the Women's Pennsylvania Society for the Prevention of Cruelty to Animals.

Owing to lack of funds, we could not this year, as before, pay a teacher to encourage, plant and supervise the window-boxes and back-yard gardens which have been under our care in former years. We very earnestly hope to be able to take up this work during the coming year. To many in the crowded slums and poorer sections these tiny gardens are the only touch of country that the summer brings. To be forced to stop our work instead of increasing it, as we had planned, was a great disappointment.

The most marked achievement of the past year was the Plant Market held by Miss Phillips in the Friends' Meeting House grounds at Fourth and Green Streets, now used by the Friends' Neighborhood Guild as a centre. The date was early in June, for it was thought best to wait until after pay day. Seeds, plants and seedlings collected from many sources were sold to eager buyers for prices from one to ten cents each. The demand was very much greater than the supply, and it is impossible to describe the joy and interest of the purchasers. Over nine dollars was taken in, but the object of the undertaking was to offer for sale seeds and growing things to those who could get them in no other way. If every one who reads this will donate to us any plants they do not need, the Committee will be very grateful; we hope to be able to hold several such Markets this year. More than one Settlement has asked us to hold our sale in its building, and we would like, if possible, to have one in each section of the city.

Late last summer, a story was told to the Committee which shows that, strive as we will, our work is not widely known.

Some one sent to the station one hundred and five baskets of squashes, but hearing that the market price was too low to pay for the shipping, had them thrown out. A postal to the office would have furnished yellow labels, and without expense to any one, these squashes would have reached people to whom fresh green vegetables are rare luxuries. For many who live surrounded by green trees and flowers and supplied with fresh fruit and vegetables, it is hard to realize what infinite pleasure surplus flowers and fruit can give.

Last year, some of our former patrons withdrew their contributions. We most earnestly hope that this was not a permanent loss of support, for we are greatly hampered by lack of funds.

Our work is one that brings happiness and cheer to many, particularly to children and sick people, throughout the hot summer months. A little more money would enable us to enlarge it in various ways.

A postal to our room will bring you the labels which, pasted on boxes or baskets, insure their prompt and free delivery to any institution or charitable organization in the city. Fruit and vegetables in boxes, not over twenty pounds in weight, jellies, plants and flowers, which would otherwise go to waste, may be so sent. Jelly is much appreciated, and through the Visiting Nurse Society often does real good.

The Committee wishes to thank all who have helped us in any way, to earnestly ask for continued interest and support, and in particular to extend its thanks and appreciation to the Express Companies, without whose generosity and help we could not carry on our work.

EMILY READ FOX.

Report of the Treasurer

FOR THE YEAR ENDING FEBRUARY 28, 1915.

Receipts.
